SANDIP SHAW

WORK EXPERIENCE

Application Developer (Java, Angular, Spring Boot, Postman and git)
TCS, Kolkata, India.

Aug 2021-Present

Working on building digital replenishment platform for one of the largest supermarket in Australia. Developing and adding features for multiple replenish products. Rewriting and adding new products to the platform.

Project Intern (Spring Boot, hibernate, Oracle and Postman)
Open Financial Technologies, Bengaluru, Karnataka

Mar 2020-Jun 2020

Trained on how different APIs are built and tested before integrating to the client site. Made services with the help of spring Boot. Understood deeply how spring controllers and ORM communicate. Gathered data of payment merchants about various issues.

EDUCATION

St. Thomas College of Engineering and Technology, Kolkata

June 2021

Bachelor of Technology in Information Technology.

PROJECTS AND CONTRIBUTIONS

- Online food ordering app in angular.
- Portfolio app using HTML, CSS and JavaScript.
- Number plate detection model using YOLO V3.
- Runtime chat application using Node.js and SocketIO.
- Snake game using only JavaScript.
